

Specialist Services

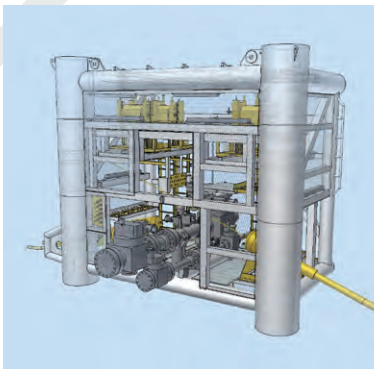

ClerkMaxwell offers a wide range of specialist services in addition to our strong discipline engineering skill sets. The philosophy is to offer a complete set of services that can either be tightly integrated for each study or project, or used on a standalone basis.

The range of specialist services offered is driven by the needs and strategy of the business going forward and the individual flair and talent of our engineers.

We actively encourage our engineers to participate in this process at all levels and our current scope of specialist services includes the following:

- Construction Support
- Cost Estimation & Verification
- Decommissioning
- Expert Knowledge Transfer & Training Support
- Flow Assurance
- Materials Management & Inspection
- Reliability & Availability Modeling and Analysis
- Risk Management
- Structural & Asset Integrity
- Value Improving Practices

Details for each of these services can be found on our website, www.clerkmaxwell.com
